Hippocampe Freedom to go - anywhere

**Head for the surf and
get as wet as you
like in the innovative
Hippocampe
All-Terrain Buggy.**

Towed, pushed or self-propelled, the easy to manoeuvre Hippocampe enables you to turn obstacles into opportunities whether you're on the beach, rambling in the woods or out on the piste.

Robust and extremely stable, this smart sports vehicle is light, easy to assemble and packs down into a stylish carrying case in moments. Plus, the corrosion resistant aluminium frame and neoprene seating are maintenance-free - just rinse with fresh water.

Designed by disabled people for disabled people, Hippocampe has been stringently tested - conformity, resistance and endurance - to ensure full compliance with CE safety standards

Let the fun begin!

Everyone - of any age - can enjoy a whole new world of opportunities for active outdoor fun to their full ability.

Whether you're half-way up a mountain, on-piste or splashing around on the beach, Hippocampe puts the fun into function.

Thanks to all the Hippocampe users for sending their pictures in to our website. Keep them coming!

Options/accessories

Hippocampe is supplied with push handle, towrope and transport bag as standard; available accessories include brakes, waist belt, harness, armrests, headrest and ski.

Delichon's clinical assessment service and range of Performance

Seating Systems make it

one of the UK's top providers of customised seating for clients with special needs.
